EMERGE

Igniting Boundless Leadership Building The Talent Pipeline

Created to help Latinas banish self-doubt and break self-imposed barriers, Proud To Be Latina is a personal and professional development network that educates, empowers and encourages Latinas to rise to their full potential. We now proudly introduce **EMERGE** – a dynamic, immersive six-module elevation program where we work with individuals, groups and organizations to develop effective, visionary and agile leaders who are ready to lead at the next level.

How The Program Is Delivered

Our goal is to ignite boundless leadership and transform individuals into outstanding leaders who can more broadly contribute to their ongoing success and that of their organizations.

We do this over six-modules constructed under three pillars:

EXCAVATION → ELEVATION → EMERGENCE

Modules 1 & 2 – The Excavation Phase

Increase Self-Awareness and Release Limiting Beliefs

It is time to get past self-imposed excuses and get started on real accomplishments. Participants are asked the biggest question to set the stage for this program: **“Who Are You Here To Be?”** We will break down barriers, extinguish lies, crush beliefs and create a clear mental path so participants can get laser-focused on their goals. **Module goal is to teach participants how to be their own and strongest leadership tool using what they already have inside of them.**

Modules 3 & 4 – The Elevation Phase

From Clarity to Strategy

Now that participants have done the digging to identify what they want and what is blocking them, it is time to engage them in developing an executable plan that will help elevate them from the past state into their desired state. We'll pivot off of the fundamental question **“Who Are You Here To Be?”**, in order to create a **Strategic Blueprint** and **Vision Board**. These powerful tools create clarity and strategy to guide individuals into their upper leadership limit. **Module goal is to create an executable strategy for professional and personal elevation.**

Modules 5 & 6 – The Emergence Phase

From Blueprint to Execution

With known blocks cleared, increased self-awareness, identified strengths and the creation of a robust blueprint and vision board, it is now time to put tools into practice. Participants learn **Three Critical Leadership Skills: high productivity, effective time management and the dominance of communicating their value with cadence.** We then mold the phases together to achieve the result of a professional who knows how to **Show Up, Communicate Value and Be Influential.**
