

POWER IGNITER & EMPOWERMENT EXPERT YESI MORILLO PRESENTS

# EMERGE

An immersive six-module program to help individuals apply disruptive, yet effective, leadership principles that move them into an elevated state of impactful and agile leadership.

## Igniting Boundless Leadership

Introducing **EMERGE**, a dynamic, immersive six-module elevation program where I work with individuals, groups and organizations to develop effective, visionary and agile leaders who are ready to lead at the next level.

## How The Program Is Delivered

The goal is to ignite boundless leadership and transform individuals into outstanding leaders who can more robustly contribute to their ongoing success and that of their organizations, while elevating their personal goals. This is done over six-modules constructed under three pillars:

**EXCAVATION → ELEVATION → EMERGENCE**

### Modules 1 & 2 – The Excavation Phase

#### Increase Self-Awareness and Release Limiting Beliefs

It is time to get past self-imposed excuses and get started on real accomplishments. Participants are asked the biggest question to set the stage for this program: “[Who Are You Here To Be?](#)” We will break down barriers, extinguish lies, crush beliefs and create a clear mental path so participants can get laser-focused on their goals.

**Module teaches participants how to be their own and strongest leadership tool using what they already have inside.**

### Modules 3 & 4 – The Elevation Phase

#### From Clarity to Strategy

Now that participants have done the digging to identify what they want and what is blocking them, it is time to engage them in developing an executable plan that will help elevate them from the past state into their desired state. We'll pivot off of the fundamental question in order to create a [Strategic Blueprint](#). This powerful tool creates clarity and a strategy to guide individuals into their upper leadership level.

**Module creates an executable strategy for elevation.**

### Modules 5 & 6 – The Emergence Phase

#### From Blueprint to Execution

With known blocks cleared, increased self-awareness, identified strengths and the creation of a robust blueprint, it is now time to put tools into practice.

Participants learn [Three Critical Leadership Skills: high productivity, effective time management and the dominance of communicating their value with tact.](#)

**We then mold the phases together to achieve the result of a professional who knows how to Show Up, Communicate Value and Be Influential.**

## Program Benefits

Individuals work from the inside out to:

- Identify roadblocks and barriers, including cultural, self-imposed and environmental
- Develop and elevate deep-seated self-awareness
- Break down goals to their granular level, and strategize an effective execution plan
- Strengthen character, increase motivation, solidify commitment and adopt disciplines to create progression
- Build partnerships and a strong tribe of professionals

## Program Outcomes

Participants leave with new ideas, skills, elevated confidence and a fresh perspective that leads them to add intrinsic value to their organizations and businesses. They will be:

- Enriched with fresh ideas empowering them to gain a robust perspective of their personal power
- Equipped with strategies for implementing personal and professional change
- Prepared to confront fears and obstacles and turn them into opportunities
- Able to implement strategic vision and sharper decision-making skills, while dominating communication

## Program Audience

- High-potential professionals looking to lead with impact, at the next level in their organizations, businesses and communities.
